Senior Technical Lead REMOTE Posted 5/5

Description
Lume Consulting Group is Seeking a **Senior Technical Lead** with below required qualification.

Responsibilities

Senior Technical Lead

Acts as a bridge between business and technical teams to guide solution development. This includes overseeing detailed requirements elaboration, validating technical feasibility, coordinating system architecture alignment, and supporting project delivery. The role requires experience with large-scale system modernization, data transformation, and cross-functional collaboration within structured project frameworks such as PAL or similar governance models.

Qualifications

- Bachelor's degree – Master's preferred
- 8 years of experience aligning IT systems with organizational business processes. At least 5 years of that experience must have been in a lead capacity
- 4 years of experience leading technical teams of four (4) or more team members – 6 years preferred
- 6 years of experience and skill in analysis, design, programming, and testing – 8 years preferred
- 5 years' experience working with Oracle databases, including design, development, and tuning. Requires deep understanding of Oracle SQL and PL/SQL, and performance tuning of queries – 7 years preferred
- 3 years' experience developing data synchronization solutions on the Oracle platform. This includes experience with ETL processes and tools and strong understanding of data modeling – 5 years preferred
